

Beginning the week of August 8, 2016

Beneficiary designation elections *now online!*

When you first log on to oxy.voya.com, you will be asked to make beneficiary designation elections so that you can view them online in the future. If you do not make new elections, paper election forms that you previously completed and submitted to OxyLink will still be valid, per the terms of the Plans. These historical forms, however, will not be transferred to Voya and will not be viewable online. **Future beneficiary designation changes will be made online and will supersede any previous elections. Once the transition to Voya is complete, OxyLink will no longer provide paper beneficiary forms for the Plans.**
