Aetna Life Insurance Company

Former Employer/Union/Trust Name: Occidental Petroleum Corporation

Group Agreement Effective Date: 01/01/2021

Group/Account Number: 467281

This *Prescription Drug Schedule of Cost Sharing* is part of the *Evidence of Coverage* (EOC) for our plan. When the EOC refers to the attachment for details of Medicare Part D prescription drug benefits covered under our plan, it is referring to this Prescription Drug Benefits Chart. (See the EOC chapters titled "Using the plan's coverage for your Part D prescription drugs" and "What you pay for your Part D prescription drugs.")

Annual Deductible Amount:	\$0
Formulary Type:	Open 2 Plus
Number of Cost Share Tiers:	4 Tier
Initial Coverage Limit:	\$4,130
True Out-of-Pocket Amount:	\$6,550
Maximum Out-of-Pocket Amount	\$1,500
Once your individual out-of-pocket expenses reach this amount, you will pay \$0 for all covered prescription drugs for the remainder of the plan year.	
Retail Pharmacy Network: P1	
<p>The name of your pharmacy network is listed above. The Aetna Medicare pharmacy network includes pharmacies that offer standard cost-sharing and pharmacies that offer preferred cost-sharing. Your cost-sharing may be less at pharmacies with preferred cost-sharing. You may go to either type of network pharmacy to receive your covered prescription drugs.</p> <p>The pharmacy network includes limited lower-cost, preferred pharmacies in rural areas of Kansas, Maine, Michigan, and Nebraska, suburban areas of Arizona and West Virginia, and urban areas of Michigan. The lower costs advertised in our plan materials for these pharmacies may not be available at the pharmacy you use. To find a network pharmacy, or find up-to-date information about our network pharmacies, including whether there are any lower-cost preferred pharmacies in your area, please call Member Services at the number on the back of your member ID card or consult the online <i>Pharmacy Directory</i> at www.AetnaRetireePlans.com.</p> <p>Members who get "Extra Help" are not required to fill prescriptions at preferred network pharmacies in order to get Low Income Subsidy (LIS) copays.</p>	

Enhanced Drug Benefit

We offer additional coverage for some prescription drugs not normally covered in a Medicare prescription drug plan, including the following:

- Drugs when used for the relief of cough or cold symptoms
- Drugs when used to promote fertility
- Drugs when used for cosmetic purposes or to promote hair growth
- Drugs when used for weight loss
- Prescription vitamin and mineral products (except prenatal vitamins and fluoride preparations)
- Drugs when used for the treatment of erectile dysfunction

The cost share for these drugs is listed in the table below. See Tier 1 for the generic cost share amount and Tier 2 for the brand cost share amount. The amount you pay when you fill a prescription for these drugs does not count towards qualifying you for catastrophic coverage. Limitations, such as quantity limits and prior authorization requirements, can be found in the formulary (Drug List) that is available online. In addition, if you are receiving “Extra Help” from Medicare to pay for your prescriptions, the “Extra Help” will not pay for these drugs. Please refer to your formulary or call Member Services for more information.

Every drug on the plan's Drug List is in one of the cost-sharing tiers described below:

Tier One – Generic drugs

Tier Two – Preferred brand drugs

Tier Three – Non-preferred brand drugs

Tier Four – Specialty drugs: Includes high-cost/unique brand and generic drugs

To find out which cost-sharing tier your drug is in, look it up in the plan's Drug List. If your covered drug costs less than the copayment amount listed in the chart, you will pay that lower price for the drug. You pay *either* the full price of the drug *or* the copayment amount, *whichever is lower*.

*Out-of-network coverage is limited to certain situations; see the *Evidence of Coverage* chapter titled "Using the plan's coverage for your Part D prescription drugs," Section 2.5.

Your former employer/union/trust provides additional coverage during the Coverage Gap stage for covered drugs. This means that you will generally continue to pay the same amount for covered drugs throughout the Coverage Gap stage of the plan as you paid in the Initial Coverage stage.

Coinsurance-based cost-sharing is applied against the overall cost of the drug, prior to the application of any discounts or benefits.

Catastrophic Coverage Stage: Amount you pay for covered prescription drugs after reaching \$6,550 in out-of-pocket prescription drug costs.

Prescription Drug Quantity	All covered prescription drugs
Per prescription or refill	You pay \$0 We will pay the rest.

Step Therapy

Your plan includes step therapy. This requirement encourages you to try less costly but just as effective drugs before the plan covers another drug. For example, if Drug A and Drug B treat the same medical condition, the plan may require you to try Drug A first. If Drug A does not work for you, the plan will then cover Drug B.

This Plan Uses the Open 2 Plus Formulary:

Your plan uses the Open 2 Plus formulary, which means you have coverage for every drug identified by Medicare as a part D drug, as long as the drug is medically necessary, and the plan rules are followed. Non-preferred copay levels apply to some drugs on the drug list. Review the *Aetna Medicare 2021 Group Formulary (List of Covered Drugs)* for more information.
