The Medicare Modernization Act of 2003 mandates that employer plan sponsors disclose to all Medicare-eligible with prescription drug coverage under their plan (this includes active employees, retirees and their dependents) whether such coverage is "creditable." Creditable means that the plan is at least actuarially equivalent to Medicare Part D coverage. The prescription drug coverage through the Occidental Petroleum Corporation Welfare Plan is "creditable." Enclosed is the latest annual Notice of Creditable Coverage.

For more information, please refer to the enclosed Notice.

NOTICE OF CREDITABLE COVERAGE

Important Notice from Occidental Petroleum Corporation About Your Prescription Drug Coverage and Medicare

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with Occidental Petroleum Corporation (Oxy) and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

- 1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.**
- 2. Oxy has determined that the prescription drug coverage offered by the Occidental Petroleum Corporation Welfare Plan is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and is considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.**

When Can You Join A Medicare Drug Plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th to December 7th.

However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

What Happens To Your Current Coverage If You Decide to Join A Medicare Drug Plan?

If you decide to join a Medicare drug plan, please be advised that you cannot cancel only your prescription drug coverage without canceling all of your Oxy medical plan coverage. If you cancel Oxy's medical plan coverage, be aware that you may not be able to get this coverage back later.

To re-enroll in the Oxy medical plan, you must have obtained other health coverage and provide proof of loss of that other health (including prescription drug) coverage within 31 days of the loss of coverage.

Your current Oxy coverage pays for other health expenses, in addition to prescription drugs, and you will still be eligible to receive all of your current health and prescription drug benefits if you choose to enroll in a Medicare prescription drug plan.

When Will You Pay A Higher Premium (Penalty) To Join A Medicare Drug Plan?

You should also know that if you drop or lose your coverage with Oxy and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

If you go 63 continuous days or longer **without** credible prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without credible coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.
